# HSBC Global Asset Management to Endorse the One Planet Sovereign Wealth Fund Framework

HSBC Global Asset Management is delighted to be one of eight global asset managers that have founded the “One Planet Asset Manager Initiative” to support the implementation of the One Planet Sovereign Wealth Fund (SWF) Framework (“the Framework”).

Together, the asset managers have committed to further the objectives set out in the Framework and advance the understanding of the implications of climate-related risks and opportunities within long-term investment portfolios. This will involve sharing investment practices, publishing relevant research and engaging with other key actors, including standard setters, regulators and the broader industry.

The announcement was made at an event hosted by President Emmanuel Macron of France at the Élysée Palace in Paris, which was attended by the leaders of the One Planet SWF Working Group and the One Planet Asset Manager Initiative. It provides a significant message to markets that investors expect companies to manage climate risks.
