The Weighted Average Maturity (WAM) of the fund is the average number of days to maturity of underlying securities, weighted by their total market value, calculated using the next coupon date of floating rate notes and demand notes, and the final legal maturity of all other instruments. The Weighted Average Life (WAL) of the fund is the average of days to maturity of underlying securities, weighted by their total market value, calculated using the lower of the stated maturity date or next demand feature date.

Fund description and strategy

The Fund seeks to provide as high a level of current income as is consistent with the preservation of capital and liquidity. The Fund will invest in direct obligations of the United States Treasury which have remaining maturities of 397 days or less. The Fund will maintain a dollar weighted average portfolio maturity of 60 days or less and a dollar weighted average portfolio life of 120 days or less. Although it is not the Fund's current intention to do so, as a defensive mechanism, the Fund may temporarily invest in repurchase agreements collateralized by U.S. Treasury obligations. HSBC Global Asset Management (USA) Inc. manages the Fund's investments. The adviser's investment philosophy is based on their tradition of identifying clients' investment objectives and performing extensive market research to identify the appropriate securities that can potentially help meet those objectives. HSBC Global Asset Management (USA) Inc. has full-time professionals, who have access to in-depth research and the ability to follow market trends and identify attractive opportunities, advising the Fund according to the Fund's investment objectives and policies.

The portfolio's composition is subject to change without notice, is provided for informational purposes only, and should not be construed as a recommendation to buy or sell any security or as investment advice to participate in any strategy. Due to rounding, totals may not equal 100%. 2. The National Association of Insurance Commissioners Securities Valuation Office (NAIC SVO) has verified that the Fund meets the criteria specified by the NAIC to permit an insurer to report shares of the Fund as bond-like for certain state insurance regulatory purposes. The "Aaa" and "AAAmf" money market fund ratings are historical and reflect the superior quality of the Fund's investments, sound liquidity management, and strong operations and trading support. Periodic reviews are conducted to ensure a secure operations environment. The ratings do not eliminate the risks associated with investing in the Fund. 3. Represents total assets of the Fund. 4. Charged annualized fiscal year to date expense ratio as of December 31, 2018. Annualized prospectus expense ratio as stated in the February 28, 2018 prospectus. 5. Orders are processed each day on which U.S. bond markets are open for trading. Website orders must be submitted 15 minutes earlier than the Fund's closing time. 6. The 7 day average yield is as of December 31, 2018. The 7 day non-subsidized yield is 1.81%. The current (7-day) yield more closely reflects the current earnings of the Fund than the total return quotation.
